This program allows for up to four FREE taxi rides or rental car reimbursements a year for anyone enrolled in the program, alleviating the worry of getting stranded at work due to missing the last bus or needing to get somewhere in a hurry. In order to use this service, you must register through [Commuter Connections](#), commute by not driving alone at least two days a week, and can only use the service on a day where you did not drive alone. In addition to providing the Guaranteed Ride Home service, [Commuter Connections](#) makes it easy for you to carpool or vanpool to work by connecting you with others in your community who may be traveling in the same direction. Not only is ridesharing an affordable way to travel by sharing costs of the commute, but it also allows you to use the HOV and ExpressLanes in the region and without penalty to get where you going quicker and make your commute more reliable.

Similar to carpooling, vanpooling offers commuters the option of riding with six or more people to and from work each day, which reduces the cost of commuting even further and still allows access to the region's HOV and ExpressLanes. Both [Vride](#) and [Enterprise Rideshare](#) offer vanpools throughout the region.
